

ANNOUNCES UPDATE ON ALBERTA DIAGNOSTIC CENTRES

Toronto, ON – March 25, 2024 – LevelJump Healthcare Corp. (TSXV: JUMP) (OTC: JMPHF) (FSE: 75J) (“LevelJump” or the “Company”), a Canadian leader in B2B telehealth solutions, is pleased to announce a series of updates on the Company’s recently acquired Diagnostic Imaging Centres in Alberta.

As part of the Company’s ongoing efforts to elevate patient care and convenience, JUMP is pleased to announce a series of enhancements made in the past few months at its ADC Imaging centres.

Beginning of Pain Management Treatment: The Company is pleased to announce that it has begun taking appointments for Fluoroscopy Imaging. Pain management is a highly sought-after treatment for those dealing with chronic issues, allowing them to return to daily activities. Currently, Alberta has a long wait period for injections and ADC is thrilled to be able to offer this service to the local communities.

Increased X-Ray Hours: Patients at the Company’s Okotoks location can now benefit from extended operational hours, ensuring greater flexibility and accessibility for scans. This location is an important hub in providing diagnostic imaging to other remote neighboring communities that lack local services.

Addition of Ultrasound Machines: The Company has added additional Ultrasound machines to keep up with rising demands for scans. This increase will help decrease wait times for more effective healthcare.

Enhanced Marketing Efforts: The Company is increasing efforts to engage referring physicians, understanding their needs, providing professional radiology reports and quick turnaround time for patient bookings. Additionally, as part of the Company’s marketing strategy, they have begun a patient outreach program to increase patient volume.

EMR Upgrade: The Company has invested in a new software system for EMR, PACS and billing to align with the demands of today’s imaging systems. Velox Imaging is now being installed and integrating with Alberta Health Services and is expected to go live this spring.

“We’re thrilled with the progress at our new centres. With upgrades to our fluoroscopy machines and the addition of more ultrasound machines to meet demand, we anticipate even busier times ahead.” Said CEO, Mitch Geisler. “These enhancements reflect our dedication to providing top-notch healthcare services and further solidify our commitment to our patients’ well-being.”

About LevelJump Healthcare

LevelJump Healthcare Corp., (TSXV: JUMP) provides telehealth solutions to client hospitals and imaging centers through its Teleradiology division, as well as in person

radiology services through its Diagnostic Centres. JUMP focuses primarily on critical care for urgent and emergency patients, establishing integral relationships in the communities we serve.
